

DICTIONARY & TOOLS ADD-ONS

Our amazing 900,000-entry Dictionary & Tools Professional, already comes with Synonyms, Translations, Antonyms, Idioms and Inflections. This is almost enough to make it the only general-reference dictionary of its kind. But we didn't stop there...we created equally incredible and complementary Add-ons that can be purchased separately and added seamlessly. We want the best and aim for the best.

You can see which functions are enabled by the orange color of the buttons; click on them to disable them and clear up the screen. The Add-ons we mentioned are the following:

DEFINITIONS:

Enable them by clicking on the button. The definitions are in light green. They allow you to know which meaning you are actually choosing. For example:

EXAMPLES:

We will now move on to the EXAMPLES Add-on. Enable them by clicking on the button. The examples are in light violet. They use the entry word in a sentence to make it clear how it should be used. See for example:

QUOTES:

We will now move on to the QUOTES Add-on. Enable them by clicking on the button. These are quotes, quips or proverbs which provide fun, colorful insight into the word you are searching. These appear in a box at the end of the meaning you are currently viewing. See for example:

IMAGES:

We will now move on to the ultimate visual aid Add-on: it will help you choose meaning by using images; in the field of words, no help is 'too much' help.

All these can be enabled or disabled by clicking on the pertaining button. Blue is disabled, orange is enabled. They can be purchased separately to add to your Dictionary & Tools Pro, to turn it into the ultimate dictionary offered nowhere else in the market.
